

Expand GrandFabric - Demo Pod

A demo pod with a large display area

The portable Expand GrandFabric - Demo Pod offers you a large space for brand communication. Add a monitor for presentations, registrations, competitions or to let visitors browse your website.

The demo pod is mounted with the same frame parts as our popular backwall system - the Expand GrandFabric, and is available with a counter on one or both sides.

Visible from all directions — on the fabric or the screen

- Can be used with or without a monitor
- Easily update your message with a new printed graphic
- Add to your display area or just use it as a freestanding info pod
- Easy to set up - no tools required
- Stable and easy to move
- Plenty of storage on the inside (just open the table top)
- Spotlight available as an accessory
- All parts fits into the Expand PodiumCase

Match the demo pod with a backwall

The Expand GrandFabric - Demo Pod matches perfectly with our modular & flexible system, Expand GrandFabric, which you can set up in different display configurations every time you use it. The system is as easy to set up as the demo pod and fits in at almost any event - both large and small.

Do you already have an Expand GrandFabric?

Add the demo pod and draw some more attention to your next exhibition or event.

Setup:

Step 1

Click to connect the frame parts

Step 2

Pull the fabric over (like a pillow case)

Step 3

Attach the table-top

Step 4

Set up the monitor holder and the monitor

Step 5

Done!
